

Financial World: API Conference

Unbundling Financial Supply Chain

What is an API?

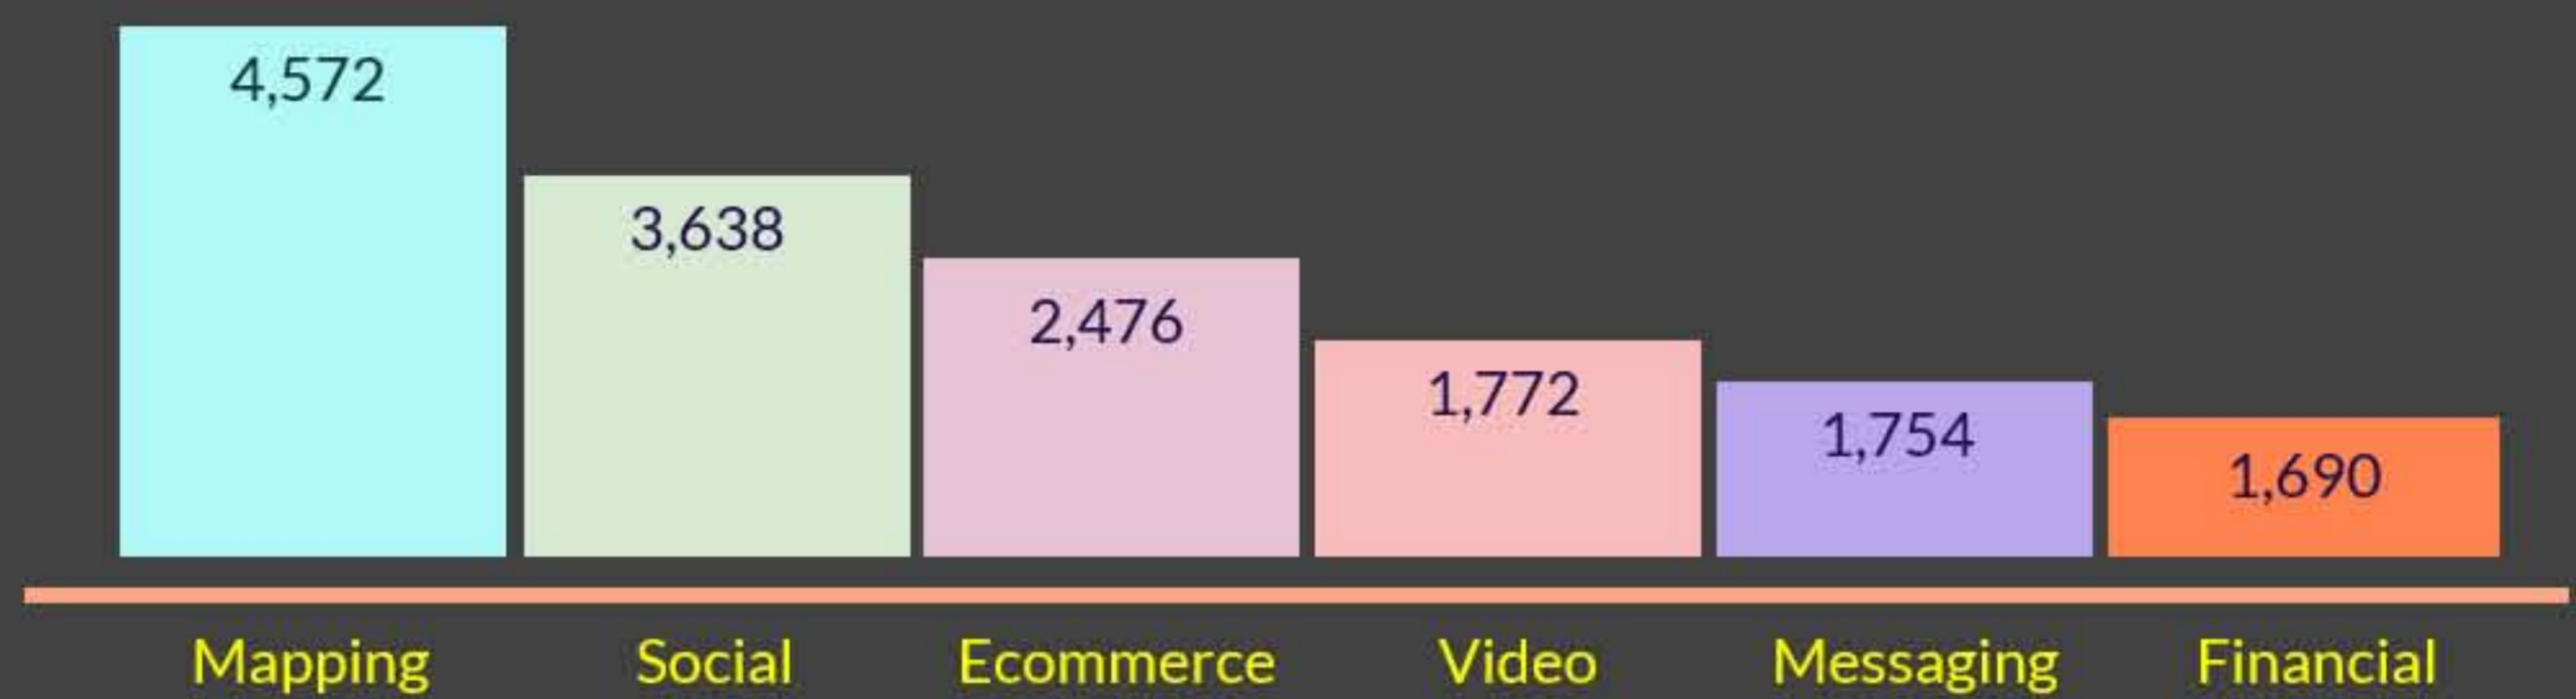

"API (Application Program Interface) is a set of routines, protocols, and tools for building software applications. The API specifies how software components should interact."

- Webopedia

API INNOVATION

- + Improve service offering
- + Increase speed to market
- + Simplify application development
- + Improve security
- + Leverage on external talents
- + Foster Innovation!

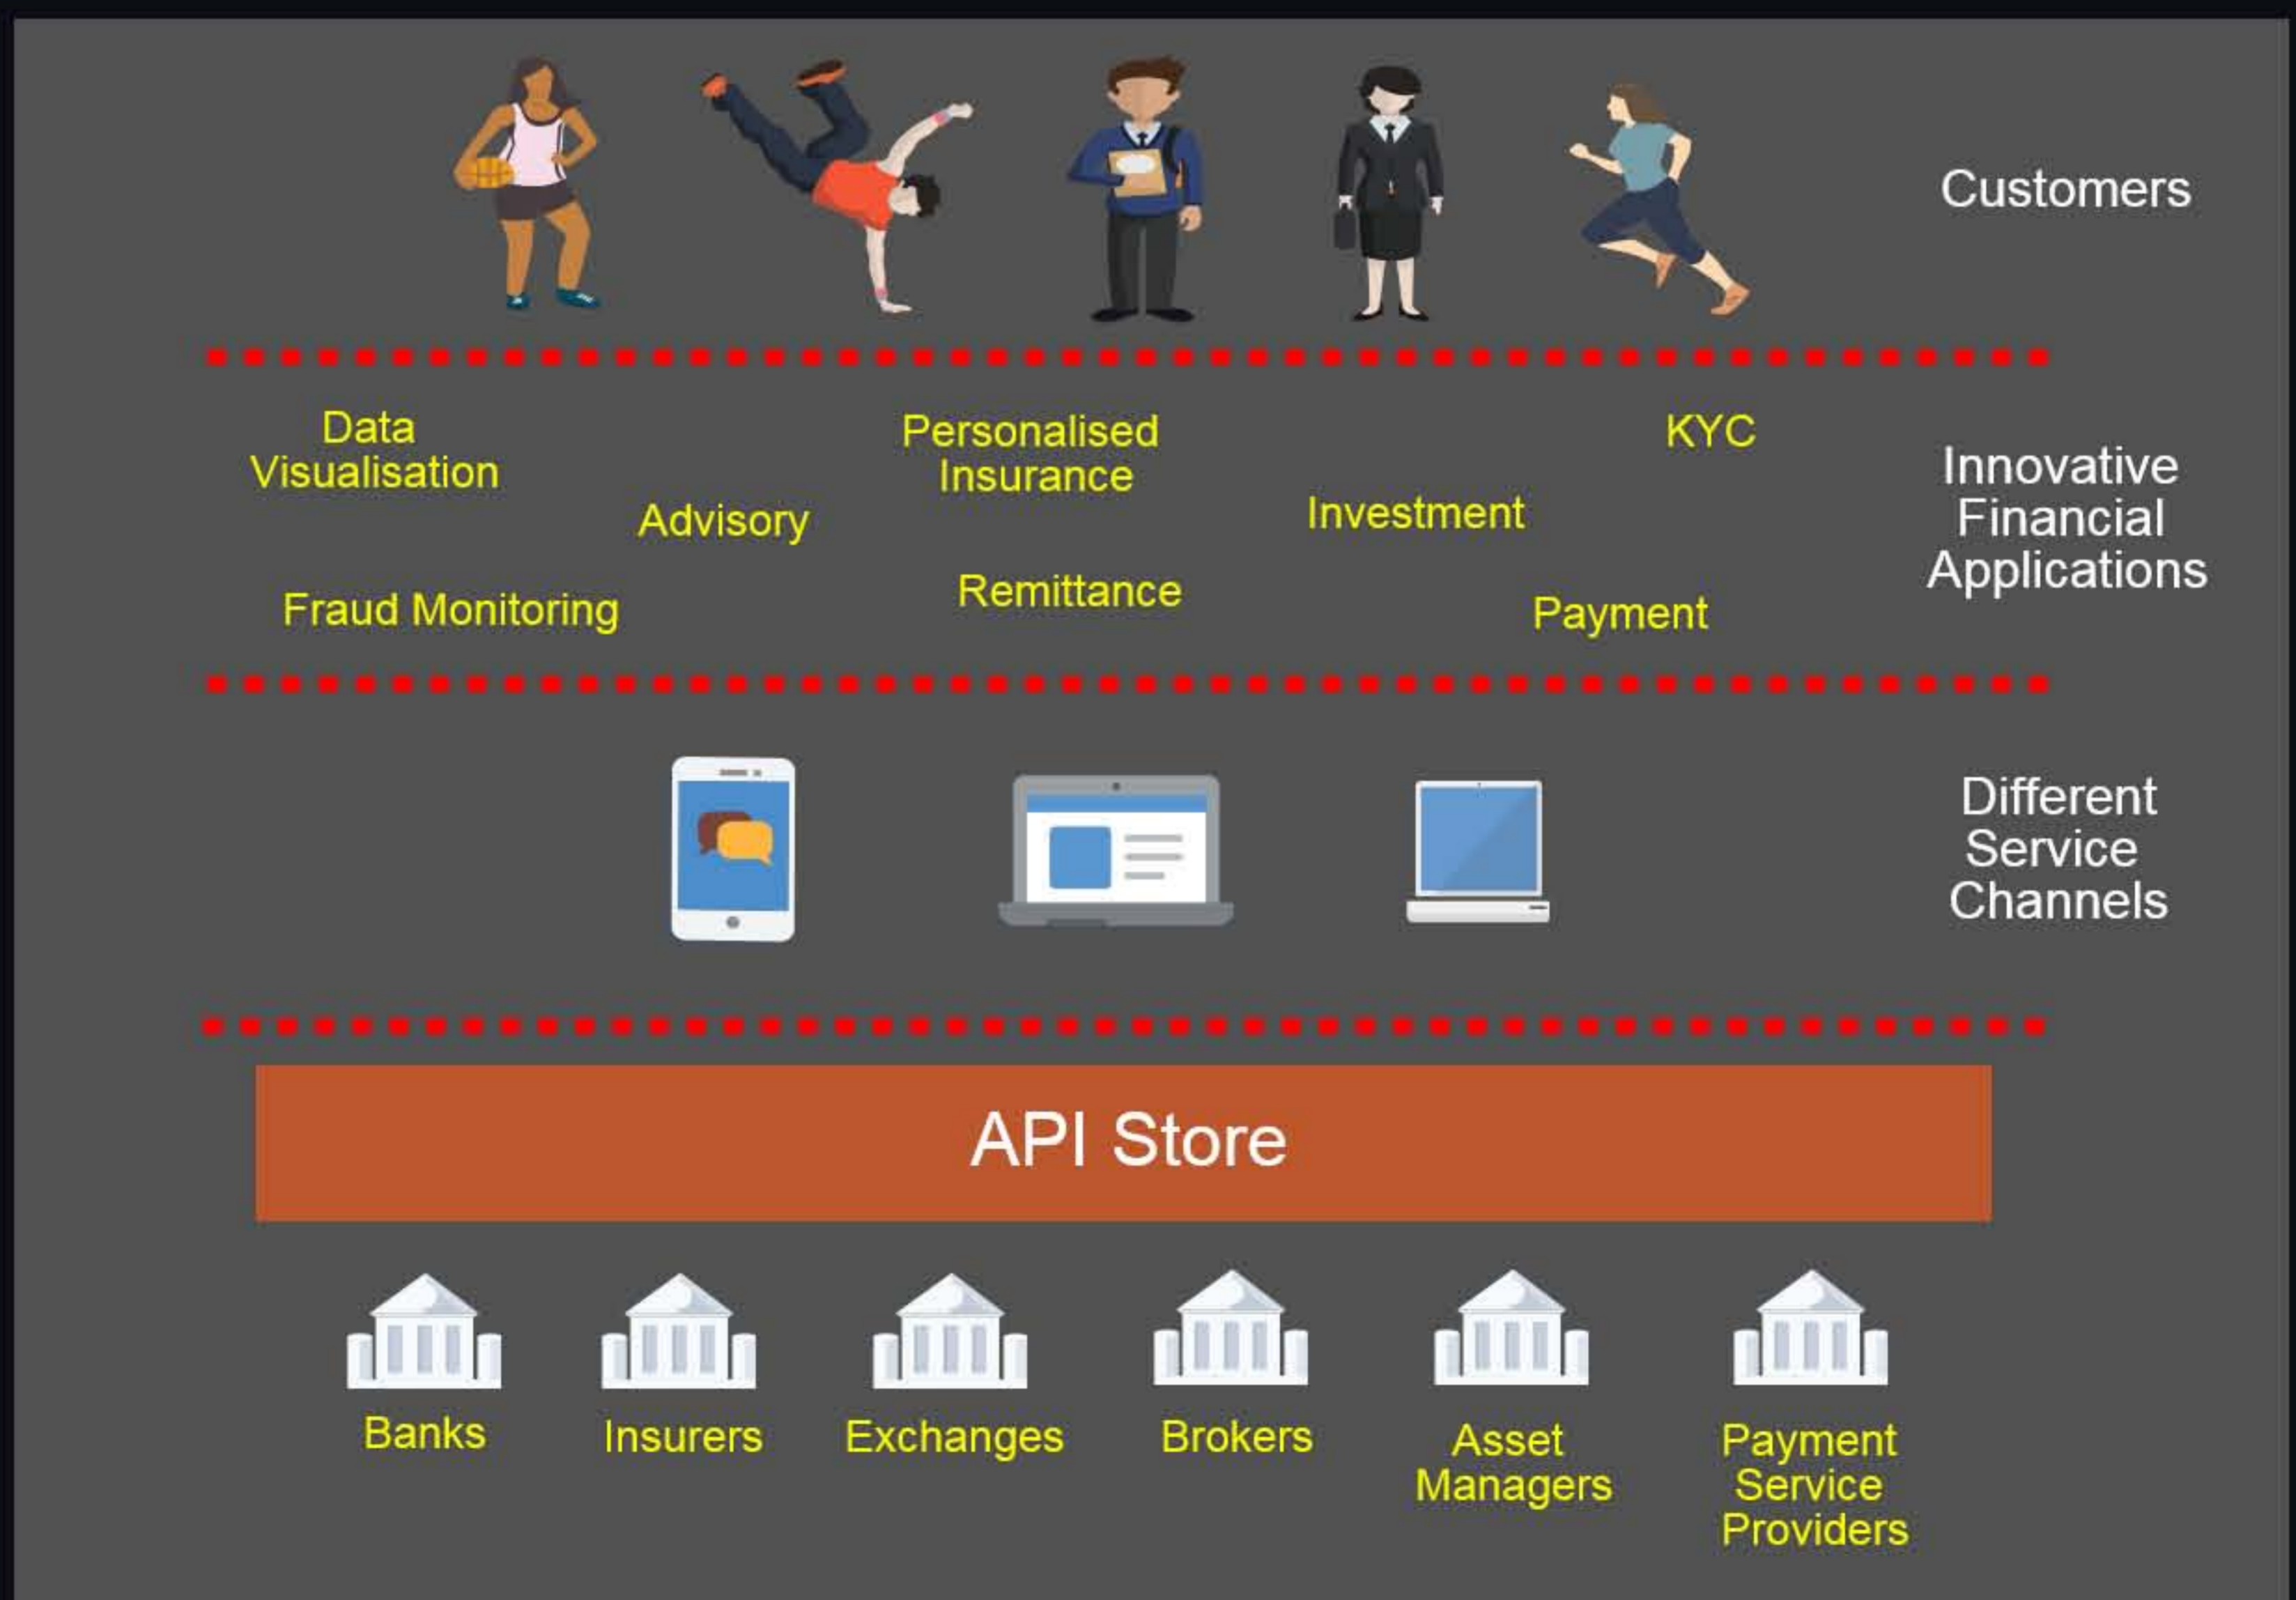

15k APIs Tracked In The World
